

Communications Committee

The Communication Committee coordinates the diverse ways Emmanuel communicates with the world around us and each other. Facebook, Twitter, E-Letters, Tower, website, articles, bulletin boards, flyers, pictures, advertising, Sunday bulletins, e-mail, mailings and word of mouth are some of the ways we do so.

Horace Newcomb was instrumental in arranging the new lecture series which is open to the public and designed to be of interest to our larger surrounding community as well as the Parish.

The Audio Visual Team provides assistance, resources and solutions to clergy, vestry, program presenter by setting up and manning audio visual equipment.

There is lots going on and your ideas are most welcome. Act on your interest by calling the committee leader listed on the contacts page.
