

Health Ministry

The Health and Wellness Ministry was initiated in 2008 to integrate Mind-Body-Spirit into church efforts concerning wellness advocacy and health support. The National Episcopal Health Ministry Conference provided information and ideas adaptable to individual parishes. An Advisory Board of Emmanuel parishioners and staff have oversight and evaluate the Ministry's activities. Volunteers from the parish have and will continue to be the most important resource as we identify needs and initiate programs.

The Health Ministry is an intentional ministry focusing on both healing and health by combining ancient Christian knowledge and traditions with modern health care. The Health Ministry witnesses to the healing activity of God through the local congregation by encouraging whole person health through:

- Integration of body, mind and spirit
- Increased self-knowledge
- Personal responsibility
- Interdependence among God's people
